

MITHRA RAMKUMAR

Senior Product Designer | UX/UI Designer | Enterprise SaaS · FinTech & Banking · AI · Design Systems · Web & Mobile
Bangalore, India | +91 9994856036 | mithrark10@gmail.com | mithrark10.github.io/portfolio | linkedin.com/in/mithra-ramkumar
Open to Immediate Relocation — Dubai, UAE

PROFESSIONAL SUMMARY

Senior Product Designer with 6+ years across enterprise SaaS, FinTech, banking compliance, AI, healthcare, telecom, and business intelligence — including 2+ years in senior design roles leading UX/UI and design-system initiatives. Hands-on expertise building and maintaining scalable design systems, establishing design processes, workflows, and best practices, and mentoring designers. Strong in user research, interface evaluation, and data-driven design decisions, with sharp visual design across layout, spacing, and typography. Proven at presenting design direction to stakeholders and partnering with product managers and engineers in fast-paced environments to ship intuitive, high-quality products.

KEY IMPACT

- Built and scaled a **scalable shared design system across 6 product teams to 95% adoption**, maintaining consistent standards across platforms and products.
- Increased task success rates by **25%** through workflow simplification and user-centered redesigns.
- Reduced critical user errors by **60%** via usability-driven redesigns and interface evaluation.
- Established **design-team processes, workflows, and best practices**, and reviewed design work to ensure quality, usability, and consistency.
- Mentored designers and presented design direction to stakeholders to align on objectives and accelerate delivery.
- Delivered UX across **FinTech, Enterprise SaaS, AI, Telecom, Healthcare, and BI**, and championed new tools and methods that advanced the design process.

CORE SKILLS

Product & UX: Product Design • UI Design • UX Strategy • Product Discovery • Information Architecture • Interaction Design • Journey Mapping • Wireframing • Prototyping • Product Strategy

Visual Design: Visual Design • Layout & Spacing • Typography • Design Consistency • Accessibility (WCAG)

Research & Evaluation: User Research • Qualitative & Quantitative Research • Stakeholder Interviews • Usability Testing • Heuristic & Interface Evaluation • Data-Driven Design

Design Systems & Ops: Scalable Design Systems • Component Libraries • Design Governance • Design Processes & Workflows • Design Reviews & QA • Design Documentation

Leadership: Design-Team Leadership • Mentorship • Stakeholder Presentations • Cross-functional Collaboration • Prioritization • Agile

Domains: Enterprise SaaS • FinTech • Banking & Compliance • Healthcare • Telecom • Business Intelligence • Dashboards & Data Visualization • Conversational & Generative AI

PROFESSIONAL EXPERIENCE

Senior Product Designer — Emids Apr 2024 – Present
Leading end-to-end product design across enterprise FinTech, banking-compliance, and AI workflow initiatives.

Velosidy — FinTech & Banking Compliance Platform

- Led UX strategy and end-to-end product design across Credit Reporting, Client Portal, and Communication Management products supporting enterprise debt-collection and regulatory-compliance operations.
- Built and scaled a **scalable shared design system across 6 product teams to 95% adoption**, maintaining consistent standards across platforms with reusable component libraries, governance frameworks, and interaction guidelines that accelerated delivery.
- Partnered with Product Managers, Engineering Leads, Compliance Specialists, and business stakeholders to define requirements and prioritize high-impact initiatives.
- Simplified complex operational workflows to improve usability and productivity while cutting duplicate design effort through reusable patterns.

AI Design Workflow Evaluation

- Led a strategic innovation initiative evaluating **Claude and Figma Make** across ideation, prototyping, design-system generation, and implementation workflows.
- Defined evaluation frameworks and success criteria for design quality, efficiency gains, and implementation readiness, benchmarking with healthcare-scheduling workflows.
- Presented recommendations that informed AI adoption strategy and design-operations practices.

Design Leadership & Mentorship

- Established design-team processes, workflows, contribution guidelines, and best practices, and reviewed design work to ensure quality, usability, and consistency.
- Facilitated design reviews and stakeholder workshops, presenting design direction and aligning user needs with business objectives.
- Mentored designers through critiques and knowledge-sharing to support professional growth, and championed new tools and methods to improve the design process.

Product Designer / Associate Product Designer — Sryas (Orion Innovation)

Jan 2020 – Apr 2024

Progressed from Associate to Product Designer, owning UX across enterprise analytics, MLOps, GenAI, and telecom products.

Analance — Business Intelligence

- Conducted user research and stakeholder interviews to uncover adoption barriers across an enterprise analytics platform.
- Redesigned dashboard, reporting, and data-exploration experiences, increasing task completion by **25%** and standardizing interaction patterns across product areas.
- Reduced critical user errors by **60%** through usability-focused interaction redesigns and improved information architecture.

Analance — MLOps

- Led UX strategy and design for an enterprise MLOps platform supporting model deployment, monitoring, and governance.
- Ran discovery workshops with ML Engineers and Data Scientists, simplifying the machine-learning lifecycle through improved IA and workflow design.

Analance — GenAI

- Designed conversational-AI experiences enabling users to generate reports and dashboards through natural-language interaction.
- Defined conversational flows, interaction models, and AI-assisted workflows, contributing to early enterprise Generative AI exploration.

Self-Service Billing Platform — Telecom

- Designed self-service billing and reporting experiences for enterprise telecom customers, improving IA and navigation to simplify access and increase self-service adoption.

Freelance Product Designer — Intro.VC

Jan 2021 – Apr 2021

Investor-Founder Matching Platform

- Designed an end-to-end MVP connecting startup founders with investors; conducted user interviews and market research to address onboarding and trust challenges.
- Delivered **8 end-to-end user journeys in 3 weeks**, supporting product validation that contributed to approximately **\$500K in seed funding**.

TOOLS & TECHNOLOGIES

Figma • FigJam • Framer • Adobe XD • Miro • Maze • Spline • Draw.io • Tableau • Power BI • Claude • Figma Make • V0 • UX Pilot • HTML • CSS • JavaScript

CERTIFICATIONS

Google UX Design Professional Certificate

Interaction Design Foundation — Multiple UX & UI Design Courses Completed

EDUCATION

Bachelor of Engineering, Electrical & Electronics Engineering

2016 – 2020

Sri Eshwar College of Engineering
